

The 10 MHz ET6000 to Passive Fan-Out cables are carefully tuned.  
 The 1 Hz ET6000 to Passive Fan-Out cables are not tuned.  
 The Passive Fan-Out to DOM Hub cables are all 32ns.

As of Jan 18, all 10 MHz outputs were found to be matched to less than 350ps.  
 One 1Hz output was found to lag the 10 MHz output by 8ns.

32 ns cables
